Investment Objective

The RiverPark/Next Century Growth Fund seeks long-term capital appreciation through investments primarily in securities of small-cap companies.

Investment Strategy

The RiverPark/Next Century Growth Fund seeks to achieve its investment objective by investing in the fastest growing and highest quality small cap companies in America. The Fund invests in companies that Next Century believes will sustain above-average revenue and earnings growth over time, or which are expected to develop rapid sales and earnings growth in the future when compared to the economy and stock market as a whole. Next Century employs a "bottom up" approach in its stock selection, which is the use of fundamental analysis to identify companies that it believes over the long term will surpass consensus earnings estimates.

Next Century's team of five portfolio managers focuses bottom-up on the following important criteria:

- 1) Top-Line Revenue Growth:** We look for companies that can grow their revenue at high rates for long periods of time.
- 2) Large and Expanding Market Opportunity:** We target companies with large and expanding end markets that can support high rates of revenue and earnings growth for many years.
- 3) Leadership Position:** We identify companies with limited competition or with the ability to gain market share as this should lead to strong revenue growth and improving margins.
- 4) Strong Management:** We consider a strong, entrepreneurial leadership team essential to delivering the full potential of a company, and we meet with and speak to management teams regularly.

* Expense ratios are as of the most recent prospectus, dated June 30, 2023. The Adviser has agreed to waive fees and reimburse expenses until at least June 30, 2024 to the extent necessary to assure that expenses will not exceed certain pre-agreed limits. The Adviser has the ability, subject to annual approval by the Board of Trustees, to recapture all or a portion of such waivers. The Gross Expense Ratio reflects actual expenses and the Net Expense Ratio reflects the impact of waivers or recaptures, if any.

The performance quoted herein represents past performance. Past performance does not guarantee future results. High short-term performance of the Fund is unusual and investors should not expect such performance to be repeated. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost, and current performance may be higher or lower than the performance quoted. Mutual fund investing involves risk including possible loss of principal. In addition to the normal risks associated with investing, international investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles or from social, economic or political instability in other nations. Narrowly focused investments typically exhibit higher volatility. There can be no assurance that the Fund will achieve its stated objectives. The Fund is not diversified.

The Russell 2000® Growth Total Return Index measures the performance of the small-cap growth segment of the US equity universe and includes those Russell 2000 companies with higher price-to-book ratios and higher forecasted growth values. Morningstar Small Growth portfolios focus on faster-growing companies whose shares are at the lower end of the market-capitalization range. Index returns are for illustrative purposes only and do not reflect any management fees, transaction costs, or expenses. Indexes are unmanaged and one cannot invest directly in an Index.
